INTRODUCTION

This handbook is designed for candidates seeking nursing assistant certification in Washington. It describes the process of applying for and taking the National Nurse Aide Assessment Program (NNAAP®) Examination.

The Washington State Department of Social and Health Services (DSHS) has contracted with Pearson VUE, a nationally recognized leading provider of assessment services to regulatory agencies and national associations, to develop, score, and report the results of the NNAAP Examination for the OBRA Nursing Assistant Registry. Credentia will be working with Pearson VUE to schedule and administer the NNAAP Examination.

NATIONAL NURSE AIDE ASSESSMENT PROGRAM (NNAAP®)

The Nursing Home Reform Act, adopted by Congress as part of the Omnibus Budget Reconciliation Act of 1987 (OBRA '87), was designed to improve the quality of care in long-term health care facilities and to define training and evaluation standards for nursing assistants who work in such facilities. Each state is responsible for following the terms of this federal law.

The National Nurse Aide Assessment Program (NNAAP) is an examination program designed to determine minimal competency to become a certified nursing assistant in your state. The NNAAP was developed by the National Council of State Boards of Nursing, Inc., (NCSBN) to meet the nurse aide evaluation requirement of federal and state laws and regulations. Pearson VUE is the authorized administrator of the NNAAP in your state.

The NNAAP Examination is an evaluation of nursing assistant-related knowledge, skills, and abilities. The NNAAP Examination is made up of both a Written (or Oral) Examination and a Skills Evaluation. The purpose of the NNAAP Examination is to test that you understand and can safely perform the job of an entry-level nursing assistant.

EXAM OVERVIEW

The two parts of the examination process, the Written (or Oral) Examination and the Skills Evaluation, will be administered on the same day. You must pass both parts in order to be certified and listed on the OBRA Nursing Assistant Registry.

The Written Examination consists of seventy (70) multiple-choice questions written in English. Sample questions are provided in this handbook. All verbal instructions for the Written or Oral Examination and the Skills Examination are given in English.

An English or Spanish Oral Examination may be taken in place of the Written Examination if you have difficulty reading English. The English Oral Examination consists of sixty (60) multiple-choice questions and ten (10) reading comprehension questions. The Spanish Oral Examination consists of sixty (60) multiple-choice questions and ten (10) questions that you must read and then choose an answer in English. If you want to take the Oral Examination, you must request it when you submit your Examination Application.

At the Skills Evaluation you will be asked to perform five (5) randomly selected nursing assistant skills. You will be given thirty (30) minutes to complete the five (5) skills. You will be rated on these skills by a Nurse Aide Evaluator. A complete listing of the skills is shown on pages 24 to 38.

See *Written (or Oral) Exam* and *Skills Evaluation* for more details on the parts of the NNAAP Examination.

ELIGIBILITY

All candidates applying to take the NNAAP Examination in Washington State are eligible after successful completion of a Washington State-approved training program, or through an Department of Health (DOH) Nursing Assistant Registry screening process. All candidates who are employed in a Medicaid-certified nursing home are required to be sponsored by their employer.

Nursing assistants who plan to work in a nursing facility must comply with an additional federal regulation. This regulation requires that a trained and successfully tested nursing assistant must never have a time period that exceeds 24 months when he or she does not work for compensation as a care-giver. Washington State interprets **compensation** to mean money or in-kind service or goods such as meals, lodging, clothing, etc. For questions, please contact the DSHS.

Once you have completed training or are approved by DSHS/DOH to test, you must complete an on-line application.

ELIGIBILITY ROUTES

THE SKILLS EVALUATION

WHAT TO EXPECT

SETTING

The Skills Evaluation is set up to resemble an actual caregiving situation. The Skills Evaluation area will look similar to your work setting. It will have all the equipment necessary to perform the assigned skills. The Skills Evaluation will be administered by a Nurse Aide Evaluator. Before your skills evaluation begins, the evaluator will show you where equipment is located and answer questions about operating the equipment. **You must arrive 30 minutes early. Test times are approximate. Please plan to spend the day.**

WHO WILL ACT AS A CLIENT?

The part of the “client” will be played by a candidate who volunteers to act as a weakened elderly person. While you perform the skills, speak to the candidate volunteer as you would speak to an actual client in a nurse aide work setting. You are encouraged to speak to the candidate volunteer not only because it is part of quality care, but also because it will help you to relax as you perform the skills. Please note, you may not receive help from anyone during the Skills Evaluation, and the candidate and the client must speak to one another in English so that the evaluator can understand and correctly score the evaluation. If either candidate gives help or receives help during the test, or the client and candidate are communicating in a language other than English, the test will be stopped.

CANDIDATE VOLUNTEER REQUIREMENTS

You will be asked to act as a candidate volunteer for another nursing assistant’s Skills Evaluation and play the role of a nursing home resident (client). The evaluator will give you verbal instructions that will describe how you should act in performing the role of the client.

CANDIDATE DRESS REQUIREMENTS

You **must wear flat, slip-on, non-skid shoes**, a loose-fitting top with short sleeves that can be rolled up to the shoulder, or tank top, and loose fitting pants that can be rolled up. You will be required to put a gown on over your clothing. In no case may candidates remove clothing down to undergarments.

Prior to beginning the exam, you should inform the evaluator of any food or latex allergy or sensitivity to skin soaps or lotion. Any limitations to range of motion must also be communicated to the evaluator prior to the start of the skills examination.

For infection control purposes, you should not come to the test site with open areas/sores on the skin. Candidates with any open areas or sores on their skin should reschedule their skills test to a later date after their skin fully heals.

THE TASKS

The NNAAP Skills List contains all of the skills that you may be asked to demonstrate during the Skills Evaluation. Each skill represents a task that you will be asked to perform in your job and has been broken down into a series of steps.

See pages 24-38 for the complete skills listing.

A step that is highlighted in **bold type** is called a **Critical Element Step**. Critical Element Steps are important steps that must be performed correctly in order for you to pass the skill. If you leave out a Critical Element Step or do not perform a Critical Element Step properly, you will not pass the skill. However, if you perform only the Critical Element Step correctly in a skill, you do not automatically pass that skill. You must also correctly demonstrate enough steps to meet the passing standard (or *cut score*) for each skill.

Before your Skills Evaluation begins, the Nurse Aide Evaluator will give you an instruction card that will list the five (5) skills selected for you to perform. Hand-washing will always be one of the skills to be performed, and there will always be and one (1) measurement skill (blood pressure, pulse, respiration, urinary output, or weight). The remaining three (3) skills are randomly chosen from the complete set of skills listings on pages 24 to 39 of this handbook. You are strongly encouraged to perform the skills in the order they are listed on the instruction card.

If you make a mistake, say so, and you will be instructed to tell the evaluator which step(s) is to be corrected and then to perform the step(s). You will not have to redo the entire skill, just the steps you wish to correct. There are, however, some exceptions to this rule. If you fail to put on gloves or take them off when it is required to do so and the evaluator reminds you to do so, for infection control purposes, then you will not receive credit for attempting to correct this step. If you wish to correct an order-dependent step (a step stating that an action should be performed **before** or **after** another step) and you fail to say **when** the corrected step should be performed, you will not receive credit for the correction.

Once you begin a new skill, you may not go back to correct a previous skill. The Nurse Aide Evaluator will not answer questions **during** the Skills Evaluation and will not tell you whether you performed a skill correctly. You may not receive help from anyone during the Skills Evaluation. If you do have any questions, please ask them before the Skills Evaluation begins.

One (1) of the four (4) randomly-selected skills will include a measurement skill (see the section below, *Recording A Measurement*, for more information regarding measurement skills).

When you have completed your skills evaluation, the evaluator will direct you to wash your hands. Although this will not affect your examination results, for the purposes of infection control, you must wash your hands.

You must successfully complete five (5) out of the five (5) skills in the skill form to pass the Skills Evaluation. You will have thirty (30) minutes to demonstrate all five (5) skills.

RECORDING A MEASUREMENT

The NNAAP Skills Evaluation requires every candidate to perform at least one measurement skill, such as blood pressure, radial pulse, respirations, urine output, or weight. You will be given a special form, called a Recording Sheet for Measurement Skills, to write down, or *record*, the measurement. For example, if performing the *Measures and Records Blood Pressure* skill, you will write the complete systolic and diastolic pressures of your blood pressure reading in a box labeled Candidate Results.

On the following page is a copy of the recording sheet that will be used during the skills exam. The candidate must record his/her results in the Candidate Results box on this sheet. This sheet will be used to record the results of the following measurement skills:

- Measures and Records Blood Pressure
- Measures and Records Weight of Ambulatory Client
- Measures and Records Urinary Output
- Counts and Records Radial Pulse
- Counts and Records Respirations

TIPS FOR THE SKILLS EVALUATION

- You will be expected to perform the skills as you would in a nursing home setting. When water is required, you must use running water. All candidates will be required to perform the *Hand Hygiene* skill. Before the exam begins, the evaluator will inform you that after performing the handwashing skill, in all other skills that require handwashing, you should tell him or her when you would wash your hands, rather than actually washing them for each skill. For all steps other than hand-washing, you must actually perform the skill in order to receive credit. You may not simply tell the evaluator what you would do for simulating a step. For example, you may not simply tell the evaluator that you would wash the client. You must actually demonstrate washing the client. You may not simply tell the evaluator that you would feed the client. You must actually demonstrate feeding the client.
- After you have introduced yourself to the client for the first time, it is not necessary for you to introduce yourself each time you begin a new skill.
- To receive full credit for a measurement skill, you must accurately make the required measurement and then write that measurement on the *Recording Sheet for Measurement Skills*. The evaluator will provide the Recording Sheet to you at the test site. A sample of the Recording Sheet is shown on page 22 of this handbook. You are encouraged to become familiar with the Recording Sheet before your scheduled test date.
- You must know how to operate both a standing and a non-digital bathroom scale and must know how to set both types of scales to zero.
- You **may not bring** any of your own equipment to the test site (i.e. transfer/gait belt).
- It is important for you to place the call signal within the client's reach whenever you leave the client.
- *Where the word "client" appears, it refers to the person receiving care.*

SCORE REPORTING

EXAM RESULTS

Nurse Aide Evaluator may not answer questions about your score report. If you have questions about your Score Report, or the content of the examination call Pearson VUE at (888) 252-8712. **Results will not be given over the telephone.** Testing pass/fail results can be viewed online. Please follow directions on page 42 under "Duplicate Score Report."

Score reports will not be given at test sites. Pass/Fail results are available for view online within 24 hours of testing. Details on failing scores are not available online. If you would like a score report mailed to you, please bring a self-addressed stamped envelope on the day of testing.

WRITTEN (OR ORAL) EXAM

After you finish the Written (or Oral) Examination, the Nurse Aide Evaluator will fax your answer sheet for scoring. After the answer sheet is faxed, it will be scored and you will receive an official Score Report. The Score Report will indicate whether you have passed or failed the Written (or Oral) Examination.

SKILLS EVALUATION

The Nurse Aide Evaluator will also fax your Skills Evaluation results for scoring. After the Nurse Aide Evaluator evaluates your performance, he or she will fax the Skills Evaluation answer sheet for scoring. An official Score Report will be faxed back to the test center and will indicate whether you have passed or failed the Skills Evaluation.

Occasionally, due to technical difficulties, Score Reports may not be received at the test center on the day of testing. If this happens your answer sheet will be mailed overnight to Pearson VUE for handscoring. Your Score Report will then be mailed out to you within 5–7 business days after testing. If you do not receive your Score Report within 7 days, you can view your result online. Sign in to your account, then click on the HISTORY tab. Select the EXAM and click on "details." For questions regarding delayed Score Reports, please contact Pearson VUE at (888) 252-8712.

FAILING

If you fail the Written (or Oral) Examination or the Skills Evaluation, your Score Report will provide you with information on how to re-take either or both parts. A new examination fee is required each time you re-take any part

of the NNAAP Examination. To re-take either or both parts, you must register online.

State and federal regulations allow you four (4) attempts to pass both the Skills Evaluation and the Written (or Oral) Examination. If you should fail either part or both parts four (4) times, you will be required to successfully complete a state-approved training program and re-take both parts.

HOW TO READ A FAILING SCORE REPORT

If you do not pass the Skills Evaluation, you will receive a Failing Score Report. The score report will list the five (5) skills that you performed and a score of *Satisfactory* or *Unsatisfactory* for each skill. Any skill with an *Unsatisfactory* result is considered a failed skill. You must receive a *Satisfactory* result on all five (5) skills in order to pass the Skills Evaluation.

Use your failing Score Report as an aid in studying to re-take the Skills Evaluation. A failed skill will show the reason for the failure. You may not have performed the steps of a skill correctly, or you may have forgotten a step, especially a Critical Element Step.

The failing Score Report will list steps that were missed or incorrect—look for numbers printed directly under a skill marked *Unsatisfactory*. A list of all the skills and the steps needed for each skill can be found in this handbook. Find the skill you failed, and study the steps, especially steps listed as *Unsatisfactory* on the score report.

In the example below, a candidate received a result of *Unsatisfactory* on the skill *Hand Hygiene*. The numbers 1, 5, and 10 printed below the skill refer to steps that were missed or performed incorrectly. To study for re-taking the Skills Evaluation, this candidate should turn to the Skills Listing in this handbook, look for the *Hand Hygiene* skill, and review all the steps, especially steps 1, 5, and 10.
